SUMMARY

Frontend-focused Developer with experience building scalable, responsive web applications using React, Next.js, JavaScript, and TypeScript. Strong understanding of component-based architecture, state management with Zustand and Redux Toolkit, data fetching with React Query, and REST API integration. Experienced in building modern interfaces with Tailwind CSS, reusable components, responsive design, and interactive animations using GSAP. Complementary backend knowledge with Node.js, Express, and MongoDB.

TECH STACK

FRONTEND

- React/Next.js
- Tailwind
- Shopify
- TypeScript
- JavaScript

STATE MANAGEMENT

- Redux ToolKit
- React Query
- Zustand

BACKEND

- Node.js
- Express

DATABASE

- MongoDB
- NoSQL

TOOLS

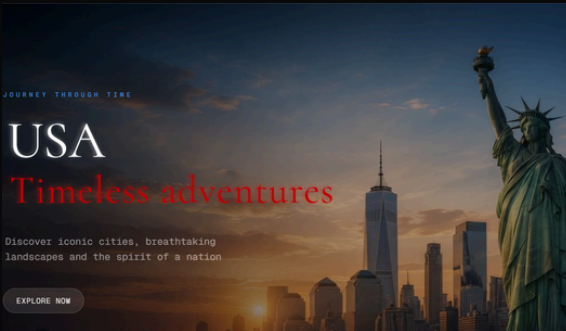

- Render
- Git
- Postman
- Vercel

PROJECTS

Tourism Cinematic Landing.

Next.js · TypeScript · Tailwind CSS · GSAP · Lenis · Zustand · Groq API

- Built a cinematic stacked-scroll experience using GSAP and ScrollTrigger.
- Implemented smooth scrolling with Lenis and synchronized animation timelines.
- Designed reusable animation hooks and modular section components.
- Used Zustand to synchronize active section and scroll progress state.
- Integrated an AI travel assistant through a server-side Next.js API route.
- Built a responsive experience across desktop, tablet and mobile.

Next.js · TypeScript · Tailwind CSS · GSAP · Lenis · Zustand · Groq API

- Built a responsive ecommerce experience with reusable product, cart and navigation components.
- Implemented global cart state and persistence using Zustand.
- Used TanStack Query for server-state management, caching and optimized data fetching.
- Developed cinematic interactions and scroll-driven animations with GSAP and Lenis.
- Integrated an AI music curator for conversational album recommendations.

Vinyl Store Ecommerce

EXPERIENCE

Hospitality Staff | United States & Argentina

2016-2023

- Delivered exceptional customer service in a fast-paced environment
- Collaborated with team members to ensure smooth daily operations
- Enhanced English proficiency through daily interaction with international customers and adapted to multicultural work environments, improving communication and collaboration skills

EDUCATION

Full stack Web Development course

CoderHouse 2024-2025
